

Delphi Launches Over 50 First-to-Market Parts Across Key Categories

New FTM products are included in the introduction of 465 new SKUs

Delphi, a brand of PHINIA Inc., has announced the expansion of its aftermarket fuel management, steering & suspension, and vehicle electronics product lines. The expansion includes 59 first-to-market part numbers among the 465 new SKUs, providing coverage for more than 200 million vehicles in operation across the United States and Canada.

Delphi is proud to introduce 16 first-to-market part numbers in its fuel management portfolio, reinforcing its position as an industry leader. The new products added in the fuel management range include fuel pump hanger assemblies, fuel pump module assemblies, fuel tank sending units, and fuel transfer units. With 40 SKUs added in total, Delphi now offers coverage for more than 11 million VIO, including some of the most popular models from Chevrolet, Hyundai, Mercedes-Benz, and Volkswagen.

The largest of the three expansions is in the steering & suspension categories, with 308 new SKUs being added to the line. **Leading the charge are 42 first-to-market components—an exciting milestone that highlights Delphi’s strong commitment to expanding its steering & suspension product line and delivering cutting-edge solutions to the aftermarket.** New part offerings include alignment camber and alignment caster components, steering tie rod assemblies, suspension control arms, suspension stabilizers, lateral arm assemblies, and more. The new SKUs cover more than 112 million VIO and include models from BMW, Ford, General Motors, and Toyota.

In the vehicle electronics category, Delphi has added 117 new SKUs that cover more than 91 million vehicles in operation. The new parts include ABS wheel speed sensors, EGR valves, engine crankshaft position sensors, engine camshaft position sensors, ignition coils, ignition knock sensors, and vehicle speed sensors. Coverage is available for models from Ford, General Motors, Honda, Mercedes-Benz, Toyota, and more.

“This new parts number announcement is Delphi’s largest to date in 2025 and allows us to deliver some of the most crucial parts required on the most popular vehicles on the road,” notes Hailey Long, Delphi’s Director for Category Management, Pricing, and Catalog for North America. “This expansion is not only a testament to Delphi’s OE engineering capabilities but also supports the aftermarket and helps keep vehicles on the road.”

Delphi remains committed to demonstrating OE expertise and aftermarket agility in expanding our coverage and supporting technicians with the solutions they need to keep vehicles on the road. For more information, please contact your local sales representative.

About Delphi

Delphi, a brand of PHINIA Inc., is a global Aftermarket leader championing next-generation talent, first-to-market innovations, market-leading products, and smart service solutions for a better and more connected today and tomorrow. The company is committed to developing solutions that prepare technicians all over the world to help vehicles go cleaner, better, and further, throughout their service life.

About PHINIA

PHINIA is an independent, market-leading, premium solutions and components provider, with over 100 years of manufacturing expertise and industry relationships and a strong brand portfolio that includes DELPHI®, DELCO REMY® and HARTRIDGE™. With over 12,500 employees across 43 locations in 20 countries, PHINIA is headquartered in Auburn Hills, Michigan, USA.

Across commercial vehicles and industrial applications (medium-duty and heavy-duty trucks, buses and other off-highway construction, marine, agricultural and aerospace and defense), light commercial vehicles (vans and trucks) and light passenger vehicles (passenger cars, mini-vans, cross-overs and sport-utility vehicles), PHINIA develops fuel systems, electrical systems, and aftermarket solutions designed to keep combustion engines operating at peak performance, while at the same time investing in advanced technologies to unlock the potential of alternative fuels.

By providing what the market needs today to become more efficient and sustainable, while also developing innovative products and solutions to contribute to lower carbon mobility, PHINIA is the partner of choice for a diverse array of customers - powering our shared journey toward a cleaner tomorrow.
